

JAC invests in client resource with tenured Director of Cloud & Security

November 2022

John Alexander Consulting (JAC) is poised, now more than ever to improve its client's digital transformation and day-to-day cloud and security operations with the arrival of Rick Rios, Director of Cloud & Security. Rick brings more than 25 years of experience to JAC and will focus on developing customized networking, cloud, and security solutions for our diversified clients.

"We are thrilled to have Rick, a leading technologist in the industry, onboard at JAC," said Alexis Pomierski, Executive Director of JAC. "Rick's application first approach to design along with his tenure in security fit our clients ever growing needs. This is an exciting time of growth for JAC."

As Director of Cloud & Security, Rick oversees and maintains JAC's cloud and security strategy. His scope of work includes architecture, application development, compliance and training to upskill our partners. Rick's tenure in the compute space combined with his ability to stay tuned into technology imperative reduces complexities and promotes improved performance.

"A positive digital experience moves businesses forward and I am grateful that JAC has brought me on to invest in the success of their client's technology operations. Having the ability to hone in on the evolving needs of our clients and customize cloud and security solutions ensures everything is done right," said Rick Rios.

Rick leaves us with a few words of wisdom for those looking to optimize their digital operations. "Do not wait. If you are thinking about investing in a technology program. Now is the time. You are never too small to have a secure technology program in place. Sometimes the smaller you are, the more venerable," said Rick. Clients of JAC expect these technology neutral resources, and we are pleased to deliver. If you don't have a security first, application driven virtualization plan, reach out to JAC to engage on a strategy!
